# Closing Out Price List Of BULBS

J. C. JAY

Eureka Springs, Ark.

My son has been assisting me this season and we have a fine lot of bulbs. As he is leaving in the spring, we must close them all out. State inspected and semesan treated. "L" means large 1 1-4 in. up except in a few instances of the slow growing kinds when one inch bulbs will be sent and they are just as good. "M" means medium, 3-4 inch up. "S" small, 3-4 down. Where blooming sizes are quoted it means 3-4 up. They are of our late planting and did not get so large owing to a severe drought but all have bloomed once and are just as good. Have

not had time to assort the different sizes. All bulbs on this list are sent prepaid. 25 per cent with the order holds the bulbs until March 1st. 12 sold at the price of ten only where marked with a X. The prices are for each and I have only a few of them. 6 sold at price of 5. My health is so poor I must close out everything. Have a few hundred kinds in my trial garden—some of the rare ones. Send me a list of your wants. Orders under \$3.00 if you want them insured send 5 cents. Orders of \$3.00 and over insured. Sums under \$1.00 can be sent

in unused 1 or 2 cent stamps. Early orders get the most extras. All are grown from bulblets and No. 6&7 planting stock. People in almost every state tell me my bulbs are the strongest. Any bulbs not satisfactory are to be returned at once and money will be refunded. I have been in the flower business since 1881. No substituting without permission. A supplement list will be appreciated and only used when necessary. I give extra value when substituting is permitted. Send me any amount you wish to invest in bulbs and I will send you extra value of my selection.

# GLADIOLUS

## Kunderd's Ruffled

A. E. KUNDERD, Richest Salmon Rose . . . . . L \$0.00; S. 25c
